SkillSphere is a web-based e-learning platform built with **HTML, CSS, and JavaScript**, integrated with **Firebase Authentication** and **Firestore** for secure user management and data storage.

The application features:

- **Sign-up & Login Screens** for account creation and authentication.

- **Role Selection Screen** allowing users to register as learners or tutors.

- **Homepage** with easy navigation to courses and learning resources.

SkillSphere is designed to provide an intuitive interface and responsive layout, making skill development accessible, engaging, and organized for all users.
